

## RESIDENTIAL & COMMERCIAL IRRIGATION Built on Innovation®

- **O1 Fast:** Precisely install sprinklers at grade in mere seconds
- **O2 Leak Free:** All models are built with airtight connection points
- O3 Simple: With a model designed for any height, installation couldn't be easier

### **SJ** SWING JOINT

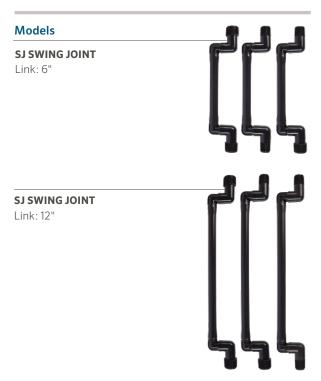

Easily adjusts sprinklers to proper height and position, and eliminates broken risers.

Have you experienced trouble installing sprinklers to the correct finish grade because you can't find the right riser length? When existing pipes are buried in shallow trenches and you want to retrofit to taller pop-up sprinklers, what can you turn to? Are you having difficulty raising sprinklers that are buried under inches of built-up thatch? Do you want to be sure that when a sprinkler has heavy equipment rolling over the top it can be easily readjusted to the correct grade? Presenting the perfect solution — the Hunter Swing Joint. It's the way to easily install sprinklers to their proper height and position in mere seconds. This is an innovative product you won't want to pass up!
